

25.04.2023 Dąbrowka

Ink resistance to the dishwasher

TESTING METHOD:

Domestic dishwasher (AEG brand)

Number of cycles: 300

Temperature: 70° C during 142 minutes including drying time

Detergent: Sun Classic Powder (5-15% Oxygen bleaches. <5% Polycarboxyalates, Non-ionic surfactants, Phosphonates, Perfume, Enzymes.)

PERFORMING TESTS:

Test done in October 2022

Test done with 2 batches of Sun Classic powder.

Test done with different UV-PRO GLASS batches.

INK TESTED: UV-PRO GLASS ink series

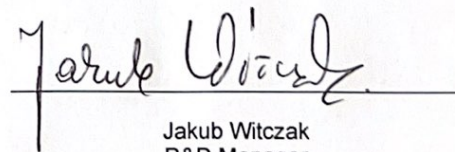

Ink aspect after the 300 cycles

- No loss of glossiness
- Adhesion tape test OK

Consequently, KELLER certifies that our inks UV-PRO GLASS has a dishwashing resistance of at least 300 cycles.
